### ECONOMY OF FUEL.

The cuts represent the Dundon Patent Flame Jacket Boilers, vertical and horizontal, both of which have been practically proved to be the best steam generators, with the least expenditure of fuel, of any boiler yet produced. Suitable for any class of fuel, but better adapted for fluid fuel than any boiler yet introduced. But, while I would strongly recommend those in preference to any other boilers, I am prepared to give estimates for the construction of any class of boilers that my patrons may desire, and also for water or oil tanks of any form or capacity. Lard Tanks, Refining Kettles and Improved Appliances for working Asphaltum and Bituminous Rock by Steam Heat.

## HAMILTON'S FRUIT GRADER.

SIMPLE, DURABLE, ECONOMICAL, EFFICIENT, ADAPTED FOR BOTH GREEN and DRIED FRUIT. **Has a Fanning Attachment,** which cleans the fruit from all dust, leaves, etc. Can be made to produce any number of grades of fruit desired. GIVES SATISFACTION, and with the improvements of 1889, it has no superior.

The "Santa Clara Valley" says: "This cut very accurately represents Hamilton's Prune Grader, with the improvements of 1889. We have seen it in operation within the last few days on dried prunes of last season, and it works finely."

## E. H. WOOLSEY, M. D., - Surgeon and Physician-in-Chief,

**Twelfth St., bet. Madison and Jackson, Oakland, Cal.**

This institution is healthfully, pleasantly and conveniently located, occupying an entire block, in a quiet neighborhood, surrounded by elegant private residences; and yet within four blocks of the Central Pacific and Narrow Gauge Railroads, and accessible to their stations by the Brooklyn street cars.

The building exteriorly is shown in the above cut, together with its attractive grounds; interiorly the woodwork is of solid and carved walnut, the mantels of purest Italian marble and design, and the walls decorated with exquisite frescoes.

The hospital section, comprising Surgical, Medical and Convalescent Wards, is separated from the section for Invalids, each department being provided with special corridors, bath rooms, electrical appliances, Dr. Louis Weigert's hot air treatment to diseases of the lungs, etc., etc.

Steam, Medicated and Electric Baths, and all the appointments of a first-class general Hospital, and all the requirements, conveniences and comfort of a Private Home for Invalids are here provided.
